

# Joyful Worship

## Colorado Mission Team

Ten missionaries from the Colorado Mission Team visited the school between 13th and 20th October, and participated in the School's Mission Week from 14th to 17th October, in order to broaden the students' horizons, deepen their understanding of each other's culture, history and development, and enhance the friendship between teachers and students of the two places.

The main purpose of the Colorado Mission Team coming to Hong Kong is to bring the gospel to the students of our school. Since English is the native language of the missionaries, all gospel activities (e.g. worship, singing hymns, English lessons, basketball games, conversations, etc.) are carried out in English.

Through the missionaries of the Colorado Mission Team, our students can gain access to real American culture, and students can learn about American society and cultural customs by interacting with the mission team.

Mission Week

The Mission Team from Colorado is in its third year at the school and is willing to build deeper relationships with students. The missionaries' kindness and selfless dedication give students a good example of learning. Students therefore learn to cherish the relationship between people, and offer a helping hand to those in need. We believe that in the future, students and missionaries can still maintain this long-term friendship.

At the same time, the missionaries of the Colorado Mission Team also play the role of a foreign teacher during the school year. They work closely with the school to arrange a variety of educational activities for students, such as daily classes, after-school activities, special activities, etc., in order to create a real context for students to practise English.

We look forward to the Mission Week which allows students to know more about God in faith and have a fruitful life. As the Bible says, "Start children off on the way they should go, and even when they are old they will not turn from it." (Proverbs 22:6). Through the participation of the missionaries from the Colorado Mission Team, students can learn native English and valuable values of life, such as sharing and helping disadvantaged communities, and they also learn to cherish all current relationships between people. We hope the Mission Team can visit us again next year to share their invaluable experience with students.
