Life Shines With Love

Award of Excellence in Educational Administration

Mr Lee Kin Lim

Heartfelt congratulations to Mr Lee Kin Lim, our discipline master, who won the award of the 4th Excellence in Educational Administration presented by the Hong Kong Council for Educational Administration. Mr Lee's tremendous contributions in quality educational administration was highly acclaimed.

On top of the need to project a sense of strictness in handling students' behavioural issues, Mr Lee advocates a caring approach and adopts a positive attitude in establishing a top-class learning atmosphere. He believes love and respect conquers all on campus. Teaching is like gardening. Teachers create the best conditions for success, just as gardeners do. When a flower does not bloom, discipline teachers should be optimistic and patient. They should be committed to sustain the environment, provide abundant guidance and monitor progress for the struggling young seedlings.

Mr Lee strongly believes all students are unique and born with great talents and potential. Schools should offer ample opportunities for students to shine. Education can unlock endless possibilities. All students can soar from zero to infinity. He also thinks the essence of education is to make learning contagious, to have one idea spark another. Through daily interactions and collaborations, both teachers and students can benefit through life on life.

Award "Ten Excellent Educational Administrators"

Among a total of 22 awardees, Mr Lee outshone and entered the top-ten list of excellent educational administrators. He shared that the keys to effective administration are gratitude and appreciation, accountability, discipline and dignity. At work, he highly values teamwork spirit and the importance of reaching a common consensus amongst all collaborators. Mr Lee also gave attributes to the endless support from the School's management team, the active participation and coordination from teachers, as well as the positive responses from parents and students. All these, without a doubt, bring the greatest efficiency to the School's operation.

Last but not least, Mr Lee believes educating youngsters is a long term process and the School will continue to strive its best to offer quality education, nurture students with the power of love and care, and establish the foundation for students' bright future.
