

# Chinese History and Cultural Week

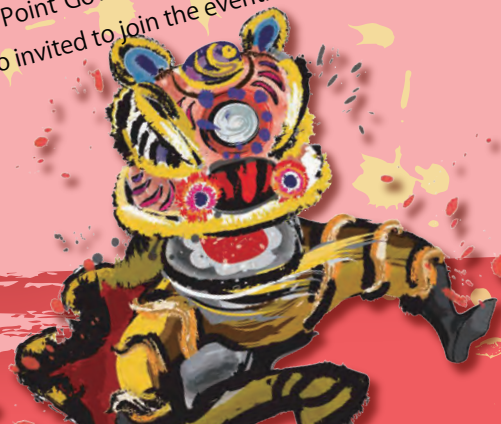

# 中國歷史文化週

In order to raise students' awareness of Chinese culture and history, and to pass on Chinese civilisation and spirit, the Chinese Department and Chinese History Department collaboratively organised the Chinese History and Cultural Week between 8<sup>th</sup> and 10<sup>th</sup> December 2021.

## Joyful participation of students and teachers

The Chinese History and Cultural Week kick-started with the Calligraphy Competition and the Chinese Famous Quote Competition. All students participated in them to show off their Chinese language skills. One of the most eye-catching events was the Chinese History and Cultural Day, where the school hall was wonderfully decorated for a variety of shows and booth games. As the Chinese saying goes, 'It is more joyful to share the happiness than to have enjoyment alone'. Students and teachers from North Point Government Primary School (Cloud View Road) were also invited to join the event.

Chinese traditional magic show

Mask painting

Shuttlecock kicking

Chinese linking rings

Chinese Klotski

Back to the past for snapshots

## Millennial traditions; Eternal legacy

The highlight of the Chinese History and Cultural Week was the featured Chinese magic show. Not only could all the students and teachers witness this once-in-a-lifetime performance, but the performer also went to the audience to interact with them so that they could experience this quintessence of Chinese culture vividly. After this wonderful show, students could also take part in the mask painting workshop in order to experience Chinese arts as well. Besides, there were a wide variety of Chinese traditional booth games, including Mushe, pitch-pot, shuttlecock kicking, sandbag, Kongming lock, Chinese Klotski, Chinese linking rings and diabolo. Joining the games, students could get copper coins, which were for redeeming famous traditional snacks and exquisite stationery. They left with enjoyment and lots of gifts. One of the most popular booths, 'Going back to the Past for Snapshot', students could take photos with traditional costumes, pretending to be emperors or empresses, commanders and gifted scholars or beautiful ladies.

This year's Chinese History and Cultural Week was a great fun! Not only did it deepen our students' understanding of Chinese traditional culture, but it also aroused their interest in it.

Famous traditional snacks
