

Notice to Parents No: 2526/072
Prevention of seasonal influenza

17th October 2025

Dear Parents / Guardians

Our school has been notified by the Centre for Health Protection (CHP) of the Department of Health that four students have contracted seasonal influenza. In accordance with the guidelines from the CHP and the Education Bureau, the school has enhanced cleaning and disinfection measures on campus to ensure the health of both staff and students.

To safeguard students' health, parents are urged to maintain a hygienic household, and co-operate with us by reminding students to observe personal hygiene and keep schools hygienic. In this connection, you are kindly requested to take the following measures:

- Seek medical advice as soon as possible if your children develop symptoms of diarrhoea, vomiting and skin rash. If symptoms such as fever, sore throat or cough are developed, they should put on a mask immediately and seek medical care from doctors as soon as possible. Please also notify the school and let the children stay at home for rest until symptoms have improved and fever has subsided for at least 2 days, or follow the medical advice on sick leave, whichever is longer.
- Inform school immediately if children are sick or have been admitted to hospital for surveillance.
- Co-operate with schools by picking up children not feeling well from school and consulting the doctor immediately.
- Provide children with handkerchiefs or tissue papers and remind them not to share towels or tissue papers with others. Remind children to keep hands clean, cover nose and mouth while sneezing or coughing and dispose used tissue paper properly.
- Before sending children to school, parents should ensure children have taken body temperatures, and bring the "Record Sheet for Body Temperature" signed by parents which should be handed to the school every day.

In case of any students being absent due to sickness, we would provide learning support for them as far as possible so that their learning progress would not be affected.

We would like to appeal to parents for collaboration in order to maintain a clean and healthy living environment. Please also remind your children to pay attention to personal hygiene and to take Communicable Diseases preventive measures.

Our school will keep close contact with CHP and closely monitor the health conditions of our staff and students. If parents want to obtain more information of the relevant disease, please refer to the relevant website: <https://www.chp.gov.hk/en/healthtopics/24/index.html>.

Please return the following reply slip through eClass Parent App on or before **21st Oct 2025 (Tue)**. If you have any enquiries, please contact school general office at 2570 0331.

Yours faithfully

Mr. Lee Kin Lim Larry
Principal
